Special children as national role models

KARACHI, Apr 8 (PR): They talked and walked, sang and danced, exhibited and performed their hearts out for Pakistan. It was a “seeing is believing” kind of an exemplary and exhilarating Super Show of Special Kids with God-gifted talents echoing awesomely from the IoBM platform for the nation at large during “Jashn-e-Bahraan for Special Children 2017”, reports Mr. Parvez Jamil, IoBM Public Affairs.

He adds in all humility, “what men at the helm of affairs, men of letters and man in the street speak or hear about ‘Unity, Faith and Discipline’ was practiced by our Special kids”. How tolerance, sympathy and fellow feeling are advocated by many a religious, political and social leader was demonstrated in letter and in spirit by our Special Kids at this Special Show.

When angel-like Special Kids sang, shares Mr. Jamil, “Lab pe aati hai dua, Qaumi Tarana, Is parcham ke saye talay, Dosti aisa nata and alike, the earth and the skies, the ambience and the audience, the young and the old sang with mesmerizing message of love, peace, trust, harmony and patriotism for Pakistan, our land of purity, promise and potential.”

It was a rare sight of

mutual cheers blended with amazing creativity of arts and crafts, skits and tableau, music and melodies with lessons in love, peace and harmony for the ailing society.

Special Kids enjoyed every bit of gift packs, food items, jumping castle, candy floss, ice creams, cartoon characters, magic show and musical melodies organized by the all-embracing IoBM hosts.

Among rare trendsetters for the nation, informs Mr. Jamil, were our own cute little Special Children, as for example, from Umeed Special Academy (USA), AURA Center for Cerebral Palsy (CP), Absa Higher Secondary School for the Deaf, THE EFFORT Centre for Special Children, victorious and laurel-winning Pakistan Special Olympics children and of other schools.

The message of caring and sharing, peace and tranquility, tolerance and cooperation as emanated from the innocence, creativity, fellow feeling and discipline from the Special Kids show overshadowed rampant mudslinging, leg-pulling, backbiting and blackmailing practices and echoes convincingly and hypnotically from Karachi to Khyber and all over Pakistan.
